

The stock prices of six companies- Bajaj, Eicher Motors, Hero Motocorp, Infosys, TCS, TVS motors was given in CSV format, for which 20 day Moving Average and 50 day Moving Average were calculated and Buy or Sell signals were generated.

Bajaj's stock close price saw it's highest in the year 2018. The profitability has increased towards 2017 and 2018.

For Eicher, the year 2017 has performed fairly well with the highest close price being sold, that means that the company was running on profit. The stocks have been dull in 2018, with equal profit and loss.

Hero also has seen considerable profit running in 2017. There has been trade off and exit equally in the year of 2017. 2018 has also been a good year for Eicher.

For Infosys, there has been a lot of transactions that have happened in 2017 and there has been considerable amount of profit from 2015 through 2018. Infosys saw its highest closing price in the year of 2018.

Except the year of 2016, rest of the years were profitable for TCS with the highest closing price in 2018.

TVS is being seen with a lot of activity in the year of 2016. But the highest closing price appearing again in 2018.

In general, all the companies were having their maximum price in the year of 2018 with good amount of trading happening in year 2017 and 2018. 2016 might have been a dull moment in the market.
